

I understand that there is a proposition to expand Low Power FM (LPFM) broadcasting service, which could potentially take priority over current FM translator service.

As an avid listener of the K-LOVE Christian Radio station, I am imploring you to ensure that this particular station remain on the air at all costs!

K-LOVE is the most positive and encouraging station that I have ever heard; it serves hundreds of thousands of listeners all over the country in a most unique and powerful way.

K-LOVE serves the United States as a positive influence in these very troubling and uncertain times. I know that the community as well as the country as a whole benefits from the positive messages and music that are presented. Without K-LOVE, we would be left with the "as usual" stations that are far from either family-friendly or encouraging! (Shows like Howard Stern's have no positive benefit for anyone). Faced with the possibility that we could no longer hear K-LOVE, I shudder at the thought of what might replace it!

K-LOVE tends to make a person's heart softer and result in everyone who hears it to go the extra mile and do something nice for his/her neighbor (be it as simple as letting someone merge into traffic or as sacrificial as donating a kidney, for example). We need more positive and encouraging messages coming into our ears and hearts, if we are ever going to continue flourishing as a nation.

Please protect K-LOVE radio station from extinction! The country needs it!
